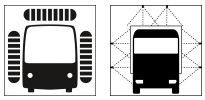
BÜFA-Clean Perfect

Mildly alkaline universal cleaner concentrate



Properties

- for cleaning vehicle interiors and exteriors
- Preserves the shine and brilliance of surfaces
- Can be used with all common HD/HW devices
- for brush washing systems and manual applications

Application

BÜFA-Clean Perfect was developed as a caring cleaning product with universal application possibilities. It is used as an exterior and interior cleaner for streetcars, buses, commercial vehicles, ... Other areas of application include rim cleaning, general cleaning work in the workshop and car wash, and as a pre-spray cleaner. The shine of the paintwork and the brilliance of the surfaces are retained for a long time with regular cleaning. BÜFA-Clean Perfect can be mixed with water in any ratio. The application concentration depends on the type and degree of soiling of the vehicles and surfaces to be cleaned. It can be applied via the automatic dosing system of the car wash, by pre-spraying, using high pressure/HW devices or manually. The system manufacturer's instructions for dosing must be observed. The application solution is applied from bottom to top using a suitable HP/HW device or sprayer. After cleaning, always rinse thoroughly with clean water to remove all residues of the cleaning agent and dissolved dirt. When using for the first time, carry out a test application on a concealed area to check the compatibility of the material.

Pre-spray method: 0.5 - 3.0 % diluted with water
Car washes: depending on the system
HD/HW devices: 0.1 - 0.3 % (at the nozzle)
Manual cleaning: 1:10 to 1:50 diluted with water (interior cleaning); 1:10 to 1:30 diluted with water (exterior cleaning)
Rim cleaning: 1 : 4 to 1:10 diluted with water

Technical data

Density (20°C)	pH-value
1,02 kg / l	9,50 - 10,50

Notes

Only store the product in the original container and in a frost-free place.
Direct sunlight should be avoided.
After removing partial quantities, the container should be resealed.
The surfactants contained in the product meet the conditions regarding biodegradability as specified in Regulation EC 648/2004 for detergents.
The product does not contain any organic complexing agents that are not sufficiently biodegradable, e.g. EDTA (according to Annex 49 of the Waste Water Ordinance).
Due to the formulation components used, no organically bound halogen compounds (AOX) are contained as active substances.
