

Lizerna Reduct Powder

Reductive bleach

Properties

- for the removal of colored stains
- Achieves very intensive and stable whitening effects
- can also be used as a pre-spotting agent for color stains on white goods

Application

Dissolve approx. 3 - 10 g of Lizerna Reduct Powder per liter of water and heat to 30 - 50 °C. A bleach-free detergent can also be added for improvement. The bleached items should be moved constantly during the approximately 20-minute treatment. Rinse thoroughly afterwards. For cotton, the temperature can be 60 - 80 °C to improve the effect.

Note:

Before using Lizerna Reduct Powder on delicate garments and on textiles with low color fastness, we recommend a hem test. Only use working vessels made of stainless steel or plastic.

Attention:

The optical brightener can be irreversibly damaged when using Lizerna Reduct Powder. Metals may darken during bleaching.

Technical data

Density (20°C)	pH-value	Bulk weight
2,37 kg / l	8,0 - 10,0 ; 10 %	ca. 1150 kg / m ³

Notes

Store the product only in the original container, dry and protected from sunlight.
After removing partial quantities, the container should be resealed.
