Lizerna Bleach

Chlorine bleach

Properties

- highly concentrated, fast-acting bleaching agent
- for stain removal and intensive bleaching
- for all washing machines and degrees of hardness
- can be used cold and warm in the prewash or as an intermediate bleaching agent

Application

The corresponding sole or pre-wash agents without oxygen bleaching agents are dosed for the respective wash cycle.

The excess chlorine should be washed out by appropriate means (e.g. with an oxygen-containing heavy-duty detergent).

Lizerna Bleach should not be used together with acids or acid-containing products.

Dosing

Machine wash	
Concentration	1 - 3 ml / kg dry wash
Temperature	60 °C
Exposure time	10 min.
Addition	For all degrees of water hardness

Stain removal and intensive bleaching	
Concentration	5 ml / kg dry wash
Temperature	60 °C
Exposure time	30 min.
Addition	Wash out excess chlorine

Technical data

Density (20°C)	pH-value
1,26 kg / l	11,0 - 12,0 ; 1 %

Notes

Store in a cool place protected from sunlight.
After removing partial quantities, reseal in an airtight container.
