

Scheibenreiniger mit Frostschutz

Additive for the windshield washer system

Properties

- Particularly fast-acting concentrate
- Suitable for all vehicle types
- Provides clear visibility and safety in winter
- in summer as a cleaning additive for windshield washer systems

Application

Scheibenreiniger mit Frostschutz is added to the vehicle's windshield washer system with pure or diluted water. It ensures good visibility and road safety for all vehicles during the winter months. In order to always have a clear view, this product should not be missing in any windshield washer system, be it in buses, streetcars, trucks or cars. When diluted appropriately, Scheibenreiniger mit Frostschutz can also be added to the water in the windscreen washer system in summer as a cleaning additive.

Scheibenreiniger mit Frostschutz can be mixed with water in any ratio.

Application concentration / frost protection

Undiluted pure / down to -30° C

Dilution 1 : 1 with water / down to -15° C

Dilution 1 : 2 with water / down to -10° C

Dilution 1 : 3 with water / down to -7° C

Dilution 1 : 4 with water / down to -5° C

Technical data

Density (20°C)	pH-value
0,90 kg / l	4,1

Notes

Only store the product in the original container and in a frost-free place.

Direct sunlight should be avoided.

After removing partial quantities, the container should be resealed.

The surfactants contained in the product meet the conditions regarding biodegradability as specified in Regulation EC 648/2004 for detergents.

The product does not contain any organic complexing agents that are not sufficiently biodegradable, e.g. EDTA (according to Annex 49 of the Waste Water Ordinance).

Due to the formulation components used, no organically bound halogen compounds (AOX) are contained as active substances.
