

Lizerna Sunex

Special product against sun cream stains

Properties

- especially developed for dissolving sun cream
- most effective at temperatures of 30-40°C

Application

Lizerna Sunex is a highly efficient laundry booster that removes greasy stains, especially at low temperatures. Thanks to its special surfactant and enzyme combination, it is specially designed for stains with sun cream in conjunction with element K2. For use in the sun cream process, please refer to a separate process.

The product can be added manually or via typical laundry liquid dosing systems.
