Status: 11/13/2026

Universal Flüssig

High-quality neutral cleaner concentrate

Properties

- pH-neutral
- gentle on the skin
- very effective
- universally applicable

Application

Universal Flüssigis a neutral, high-yield concentrate with skin protection and care components (lanolin) that enables particularly gentle cleaning. Selected surfactants ensure particularly gentle cleaning and drip-free draining of the cleaning solution, making long post-drying phases superfluous. The good grease and dirt dissolving capacity is accompanied by good foaming properties. The product is non-corrosive. Universal Flüssig can be used in all areas for basic and maintenance cleaning of all damp wipeable surfaces. It is particularly suitable for use in manual cleaning and degreasing processes on painted parts, porcelain, tiles, tiles, windows and floors. Universal Flüssig is also ideal for cleaning dishes quickly and gently.

Universal Liquid can be used with cold water. However, the use of warm water significantly improves the cleaning result. A few splashes are sufficient for dishwashing. After treatment with cleaning products, rinse with fresh water when used in food-processing businesses to remove all products completely from the cleaned surfaces.

Dosing

Basic cleaning	
Concentration	1 %

Maintenance cleaning	
Concentration	0,1 - 0,5 %

Technical data

Density (20°C)	pH-value
1,03 kg / l	6 - 7 ; 1 %

Notes

Storage:
Store the product only in the original container and frost-free.
Direct sunlight should be avoided.
After removing partial quantities, the container should be resealed.
